DRY CLEANING

Course #287

This course is designed to familiarize air pollution regulators with the dry cleaning industry and the Airborne Toxic Control Measure (ATCM) for emissions of Perchloroethylene (PERC) from dry cleaning operations. Classroom discussion will focus on the (PERC) dry cleaning process and the inspector's role ensuring compliance with local, state and federal regulations. During the field visit (mock inspection), students will receive hands-on experience at a dry cleaning facility. Please bring any applicable safety equipment including but not limited to hard hat, safety shoes, safety glasses or hearing protection to the visit.
